EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William B. Kempler (Reg. No. 28,228) on 06 June 2007.

The application has been amended as follows:

a) Delete everything after the title and before "CROSS REFERENCE TO RELATED APPLICATION" and insert: --This application claims benefit of U.S. Provisional Patent Application 60/124,408, filed on March 15, 1999 and U.S. Non-Provisional Patent Application 09/475,652, filed 12/30/1999, which application is incorporated herein by reference.--

b) Replace "co-pending application Serial No. _____, entitled" on lines 7 and 8 of the specification with: --co-pending application Serial No. 09/475,901 now U.S. Patent No. 6,788,340, entitled--

Allowable Subject Matter

2. Claims 19-26 are allowed.

3. The following is an examiner's statement of reasons for allowance: While the prior art teaches defective pixel filters comprising AND gates, OR gates, comparators and difference calculators (see for example: Prater et al., US 6,509,927; Nagumo et al.,

Art Unit: 2622

US 4,167,754; Hwang, US 5,995,675; Suzuki, US 5,327,246), the exact defective pixel filter structure claimed is not taught or suggested. Suzuki in particular discloses a defective pixel filter in which a maximum and minimum value is determined from a region of pixels, a difference is determined from the pixel value and the maximum value and a second difference is determined from the pixel value and the minimum pixel value and two comparators are used in accordance with the calculated differences and set thresholds (e.g. Figure 4). However, the defective pixel filter of Suzuki is different from the defective pixel filter of the present invention in that it does not include AND gates, inverters and an OR gate as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Timothy J. Henn whose telephone number is (571) 272-7310. The examiner can normally be reached on M-F 11-7.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vivek Srivastava can be reached on (571) 272-7304. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
